

INTERNATIONAL TRIBUNAL  
FOR NATURAL JUSTICE

14 March 2017

**Press Release**

**Announcing Temporary Suspension of  
Accepting Applications to the ITNJ**

Following the recent constitutional review and associated process, wherein the ITNJ Trustees determined that the most impactful direction for the ITNJ to move in the near term is to focus on judicial commissions of inquiry rather than landmark cases with third parties, and given that the ITNJ does not have sufficient resources to support multiple cases from multiple parties at the present time, the Trustees have determined to temporarily suspend the application process to the ITNJ in order that false expectations are not raised from the world at large, and in order that all ITNJ resources can be exclusively focused upon the **ITNJ Judicial Commission of Inquiry into Child Sex Trafficking**, which we are readying to launch.
