

INTERNATIONAL TRIBUNAL FOR NATURAL JUSTICE

Press Release – ITNJ Official Announcement

Judicial Commission of Inquiry Into Human Trafficking and Child Sex Abuse

Two years have passed since the Inauguration and Ceremonial Seating of the International Tribunal for Natural Justice on 15th June 2015 at Westminster Hall in London. The event marked the momentous occasion of the 800th anniversary of the signing of the western world's most ancient and cherished legal treasure, the Magna Carta.

The ITNJ's inauguration saw dignitaries from around the world, international diplomatic delegations, and thousands of people of the world intone aloud the ITNJ Treaty through the halls of Westminster, heralding the dawn of a new metric for global jurisprudence and the return of a natural and just order on earth.

Two years on, we are very proud to formally announce the **ITNJ Judicial Commission of Inquiry into Human Trafficking and Child Sex Abuse**.

At a time when mainstream media is beginning to acknowledge institutionalised paedophilia, and as there remains an apparent reticence on the part of judicial and enforcement agencies to investigate or otherwise pursue the most disturbing cases, especially those which involve allegations reaching the highest echelons of society, this Commission is both timely and needful. With celebrated luminaries and influential people now joining the Commission's ranks (as Commissioners, Justices, Advocates, Star Witnesses, etc.), those elements within our society still engaging in such repugnant and inhuman activities, especially those in positions of power and influence, will surely be paying attention.

To date, those who have been formally appointed to serve the Commission in a formal capacity include Ted Strong – Chief Justice of the Yakama Nation; Steven Seagal – Actor, Director, and fmr Navy SEAL; His Grace Bishop Riah Abu El-Assal – Bishop of Jerusalem; Robert David Steele – fmr CIA Clandestine Case Officer, fmr Deputy Director of Marine Intelligence, Nobel Peace Prize nominee; Dr Cynthia McKinney – fmr US Presidential Candidate and fmr 6-term US Representative for the State of Georgia; Dounne Alexander, MBE; not to mention our own Chief Justice, Sir John Walsh of Brannagh, and many more besides. The Commission has further galvanised substantial private support of key influential world leaders and political figures whose names will be released as appropriate. Security precautions have been taken and continue to be regarded as a high priority in this controversial undertaking.

The goal of the Commission is to achieve in 6 months what leaders and governments of the world have failed to do in centuries — shed the FULL light of truth on the true nature and extent of the human trafficking and child sex abuse pandemic.

The principal intention behind the Commission is not to instigate witch hunts or target particular figures, but rather to set in motion a culture which ensures the restoration of Truth, disclosure, reconciliation, and redemption surrounding human trafficking and child sex abuse. Until these subjects are dragged into the mainstream and formally acknowledged by media, society, and our institutions of governance, millions of victims will continue to be harvested into its complex.

The Commission will receive evidence from star witnesses in addition to accepting evidence, testimonials, and Affidavits of Truth from the public at large. Evidence will be weighed by the Commission during regular hearings spanning an approximate 6-9 month period. All hearings will be live-streamed to the world as appropriate whilst ensuring that no third parties are named. Findings and recommendations will be directed to appropriate enforcement agencies.

If you are not already incensed by the scourge on humanity which human trafficking and child sex abuse represents, then we direct your attention to the [Commission Dossier](#) prepared to highlight the most egregious cases we are aware of, and which the Commission proposes to hear.

To state our position on the sentencing and punishment of perpetrators of human trafficking and/or child sex crimes, be they individuals or institutional conspiracies: by virtue of its mandate by the people, the ITNJ is duty-bound to uphold natural law. Natural law is not so concerned with punishment and retribution as it is with the process of supporting restoration of balance to life. The Board of Trustees will issue a statement during the seating of the

Commission stating its position in this regard, but we nonetheless make this particular statement now as a precursor to this invitation.

Those who are or have been engaged in the activities which the Commission shall be hearing evidence upon, are invited to declare themselves. Voluntary repentance is how this ends gracefully.

Neither the ITNJ nor any of its central contributors shall be deterred in this undertaking. The age in which destruction of innocence is an accepted cultural meme is now at an end.

In Grace and Under the Aegis of Almighty God

Chief Justice Dr. John Walsh of Brannagh

Associate Justice Ted Strong

His Grace Bishop Riah Abu El-Assal

Steven Seagal

Robert David Steele

Dounne Alexander, MBE

Dr. Cynthia McKinney

Reverend Dr. Nancy Ash
